NVCrime Help Document
Introduction to NVCrime

This is not a real help document. If it were real, it would actually contain useful information. As it is, there is nothing remotely useful contained herein. This is essentially the ravings of a mad lunatic, starved for attention. Pay no heed to these scribblings, for they will do you no good whatsoever. If you are still reading this innanity, you must have too much free time. Oh, and thanks for your business!
