MetroGIS Regional Parcel Dataset
Attribute Detailed Descriptions

STANDARD PARCEL ATTRIBUTES – REGIONAL PARCEL DATASET

Regional Parcel Attribute	Field Name	Field Description	Field Type	Field Width
Unique County ID	COUNTY_ID	Three digit FIPS and State standard county code.	text	3
Unique Parcel ID	PIN	Unique regional parcel ID comprised of the county PIN with the county code and dash appended to the front.	text	17
House Number	BLDG_NUM	The building or house number of the parcel. (Things like fractional house numbers should be included with this field.)	text	10
Street Prefix Direction	PREFIX_DIR	Street prefix direction for the parcel. Domain = N, S, E, W, NE, NW, SE or SW (as defined in USPS Pub. 28 Appendix B http://pe.usps.gov/cpim/ftp/pubs/Pub28/pub28.pdf)	text	2
Street Prefix Type	PREFIXTYPE	Street prefix type (e.g. Hwy) for the parcel.	text	6
Street Name	STREETNAME	Street name for the parcel. If a county is unable to provide the individual street data fields (direction, type, etc), they may be provided as a combined data element in this field.	text	40
Street Type	STREETTYPE	Street type abbreviation for the parcel (as defined by USPS Pub. 28 Appendix C. http://pe.usps.gov/text/pub28/pub28apc.html#508hdr2)	text	4
Street Suffix Direction	SUFFIX_DIR	Street suffix direction for the parcel. Domain = N, S, E, W, NE, NW, SE or SW (as defined in USPS Pub. 28 Appendix B http://pe.usps.gov/cpim/ftp/pubs/Pub28/pub28.pdf)	text	2
Unit Information	UNIT_INFO	Additional unit information for the parcel for condominiums, etc. (e.g. Unit 5B, Suite 8, etc.)	text	12
City (actual)	CITY	Name of city or township in which the parcel actually resides (not the mailing address city).	text	30
City (mailing)	CITY_USPS	The mailing address city for the parcel as defined by the USPS.	text	30
ZIP Code	ZIP	ZIP code for the parcel.	text	5
ZIP 4 Extension	ZIP4	The four digit zip code extension for the parcel.	text	4
Legal Description Plat Name	PLAT_NAME	The legal description plat name (this is often synonymous with the subdivision name).	text	50
Legal Description Block	BLOCK	The legal description block within the plat.	text	5
Legal Description Lot	LOT	The legal description lot within the block.	text	5
Polygon Acreage	ACRES_POLY	The calculated acreage of the polygon within the GIS spatial data. (numeric field with two decimal places)	numeric	11(2 dec) ESRI Precision 10 Scale 2
Deeded Acreage	ACRES_DEED	The deeded acreage of the parcel. (numeric field with two decimal places	numeric	11 (2 dec) See Above
Use Type 1	USE1_DESC	Description of use type 1.	text	100
Use Type 2	USE2_DESC	Description of use type 2.	text	100
Use Type 3	USE3_DESC	Description of use type 3.	text	100
Use Type 4	USE4_DESC	Description of use type 4.	text	100
Multiple Uses	MULTI_USES	Flag (Y/N) to indicate if multiple uses exist.	text	1
Landmark/Business Name	LANDMARK	Name of the predominant landmark or business on this parcel.	text	100
Owner Name	OWNER_NAME	The full name of the owner. The format should be last name first where available. Inclusion of multiple owners is up to each county.	text	50
Additional Owner Name	OWNER_MORE	Field for additional owner information where available (e.g. joint owner or additional first name first format).	text	50
Owner Address	OWN_ADD_L1 OWN_ADD_L2 OWN_ADD_L3	Mailing address of the owner. Up to three lines may be used. Typically line1 is street address and line2 is city, state & zip, but other variations exist.	text	40 each
Taxpayer Name	TAX_NAME	The full (first and last) name of the taxpayer. The format (e.g. last name first or last name last) and inclusion of multiple taxpayers is up to each county.	text	40
Taxpayer Address	TAX_ADD_L1 TAX_ADD_L2	Mailing address of the taxpayer. Up to three lines may be used. Typically line1 is street address and line2 is city, state & zip, but other variations	text	40 each

Regional Parcel Attribute	Field Name	Field Description	Field Type	Field Width
	TAX_ADD_L3	exist.		
Homestead Status	HOMESTEAD	Homestead status (Y = yes, N = no, P = partial) .	text	1
Estimated Market Value - Land	EMV_LAND	Land estimated market value	numeric	11
Estimated Market Value - Buildings	EMV_BLDG	Building estimated market value	numeric	11
Estimated Market Value - Total	EMV_TOTAL	Total estimated market value	numeric	11
Tax Capacity	TAX_CAPAC	Tax capacity of the parcel	numeric	11
Total Tax	TOTAL_TAX	Total tax of the parcel	numeric	11
Special Assessments	SPEC_ASSES	Special assessment value due and payable in the current year.	numeric	11
Tax Exempt Status	TAX_EXEMPT	Tax exempt (Y/N)	text	1
Exempt Use 1	XUSE1_DESC	Description of exempt use type 1.	text	100
Exempt Use 2	XUSE2_DESC	Description of exempt use type 2.	text	100
Exempt Use 3	XUSE3_DESC	Description of exempt use type 3.	text	100
Exempt Use 4	XUSE4_DESC	Description of exempt use type 4.	text	100
Dwelling Type	DWELL_TYPE	Type of dwelling (e.g. single family, duplex, etc.)	text	30
Home Style	HOME_STYLE	Home style description (e.g. rambler, split entry, etc.)	text	30
Square Footage	FIN_SQ_FT	Finished square footage	numeric	11
Garage	GARAGE	Garage (Y/N)	text	1
Garage Square Footage	GARAGESQFT	Garage square footage	text	11
Basement	BASEMENT	Basement (Y/N)	text	1
Heating	HEATING	Type of heating in use	text	30
Cooling	COOLING	Type of cooling in use	text	30
Year Built	YEAR_BUILT	Year built	numeric	4
Number of Units	NUM_UNITS	Number of residential units.	text	6
Last Sales Date	SALE_DATE	Date of last sale	date	8
Last Sales Value	SALE_VALUE	Value of last sale	numeric	11
School District	SCHOOL_DST	Unique school district number	text	6
Watershed District	WSHD_DIST	Watershed district or watershed management organization name	text	50
Green Acres	GREEN_ACRE	Green acres status (Y/N)	text	1
Open Space	OPEN_SPACE	Open space status (Y/N)	text	1
Agricultural Preserve	AG_PRESERV	Agricultural preserve status (Y/N)	text	1
Ag. Preserve Enrolled	AGPRE_ENRD	Agricultural preserve enrolled date	date	8
Ag. Preserve Expiration	AGPRE_EXPD	Agricultural preserve expiration date	date	8
Parcel Polygon to Parcel Point and PIN Relationship Code	PARC_CODE	This field is used to provide information about the relationship between parcel polygons, parcel points and unique tax parcel identifiers (PINs).	numeric	2

MetroGIS Regional Parcel Dataset Attribute Completeness Assessment

(Updated annually in January unless otherwise noted)

Use the following color key with this table.

Fully Populated	Complete and properly formatted for 95% of applicable records
Mostly Populated	Complete and properly formatted for 50 to 95% of applicable records
Mostly Unpopulated	Complete and properly formatted for 5 to 50% of applicable records
Unpopulated	Less than 5% of applicable records complete and property formatted (blank cell = zero)

Numbers indicate actual percentages of populated records. Colors, however, refer to percentages of **applicable** records. For example, only some parcels will have a street suffix direction. Thus if only a small percentage of the parcels are populated in that field, it may still constitute 100% of the applicable parcels for that attribute, and will thus be green.

Where an attribute does not exist within the boundary of a county (e.g. no cities allow street prefix types), it may be noted as **Does Not Apply** in this county (**DNA**).

Attribute	Field Name	Anoka	Carver	Dakota	Hennepin	Ramsey	Scott	Washington
Unique County ID	COUNTY_ID	100%	100%	96%	100%	100%	99%	100%

Data Currentness

County attribute data are up-to-date as of the following dates:

Anoka	9/30/2014
Carver	10/1/2014
Dakota	10/9/2014
Hennepin	10/1/2014
Ramsey	9/30/2014
Scott	9/29/2014
Washington	9/29/2014

Detailed Documentation of Attributes

A standard set of attribute fields is included for each counties point and polygon dataset; however, not all attributes fields are populated by each county. Some qualifying comments have been provided by counties and are included after the description of the attributes. Additional or missing attributes may be available from local assessors.

Attributes are listed in the order in which they appear in the attribute tables.

COUNTY_ID Unique County ID

Type: text Width: 3

Three digit FIPS and state standard county code.

003 = Anoka
019 = Carver
037 = Dakota
053 = Hennepin
123 = Ramsey
139 = Scott
163 = Washington

PIN Unique Parcel ID

Type: text Width: 17

Unique regional parcel ID comprised of the county PIN with the county code and dash appended to the front.

Scott: Old versions (2002) contained leading zeros in parcels less than 8 characters in length.
Ramsey:
Dakota: As of 3/31/2011 Dakota County Tax PIN's changed format, the last 5 digits have been rearranged.
PIN 037-121234512312 (OLD FORMAT 037-1212345*123*12) is now formatted as
PIN 037-121234512123 (NEW FORMAT 037-1212345*12*123).

BLDG_NUM House Number

Type: text Width: 10

The building or house number of the parcel. (Things like fractional house numbers should be included with this field.)

Carver:	Courtesy field maintained by County Taxpayer Services
Dakota:	Field is unverified.
Washington:	Field is unverified.

PREFIX_DIR Street Prefix Direction

Type: text Width: 2

Street prefix direction for the parcel. Domain = N, S, E, W, NE, NW, SE or SW (as defined in USPS Pub. 28 Appendix B http://pe.usps.gov/cpim/ftp/pubs/Pub28/pub28.pdf)

Carver:	Not available
Dakota:	Field is unverified.
Hennepin:	Combined in STREETNAME field
Ramsey:	No data. Direction information is identified by SUFFIX_DIR.
Scott:	No data
Washington:	No data. Direction information is only identified by SUFFIX_DIR

PREFIXTYPE Street Prefix Type

Type: text Width: 6

Street prefix type (e.g. Hwy) for the parcel. *Few counties store this data separately.*

Anoka:	No data (TYPE is part of STREETNAME)
Carver:	Not available
Dakota:	Field is unverified.
Hennepin:	Combined in STREETNAME field.
Scott:	No data
Washington:	No data
Ramsey:	No data – Direction information is identified by SUFFIX_DIR

STREETNAME Street Name

Type: text Width: 40

Street name for the parcel. If a county is unable to provide the individual street data fields (direction, type, etc), they may be provided as a combined data element in this field.

Carver:	Courtesy field maintained by County Taxpayer Services
Dakota:	Field is unverified.

STREETTYPE Street Type

Type: text Width: 4

Street type abbreviation for the parcel as defined by USPS Pub. 28 Appendix C. http://pe.usps.gov/text/pub28/pub28apc.html#508hdr2 .

Carver: Courtesy field maintained by County Taxpayer Services
Dakota: Field is unverified.
Hennepin: Combined in STREETNAME field.

SUFFIX_DIR Street Suffix Direction

Type: text Width: 2

Street suffix direction for the parcel. Domain = N, S, E, W, NE, NW, SE or SW; as defined in USPS Pub. 28 Appendix B http://pe.usps.gov/cpim/ftp/pubs/Pub28/pub28.pdf .

Carver: Courtesy field maintained by County Taxpayer Services
Dakota: Field is unverified.
Hennepin: Combined in STREETNAME field
Scott: No data

UNIT_INFO Unit Information

Type: text Width: 12

Additional unit information for the parcel for condominiums, etc. (e.g. Unit 5B, Suite 8, etc.)

Carver: Courtesy field maintained by County Taxpayer Services
Dakota: Field is unverified.
Scott: No data
Washington: No data

CITY City (actual)

Type: text Width: 30

Name of city or township in which the parcel resides (not the mailing address city or township).

Washington: Unverified

CITY_USPS City (mailing)

Type: text Width: 30

The mailing address city for the parcel as defined by the USPS.

Carver: Courtesy field maintained by County Taxpayer Services
Dakota: Field is unverified.

ZIP ZIP Code

Type: text Width: 5

Zip code for the parcel

Carver:	Courtesy field maintained by County Taxpayer Services
Dakota:	Field is unverified.

ZIP4 ZIP 4 Extension

Type: text Width: 4

The four digit zip code extension for the parcel.

Anoka:	As of 3/29/2012 this information is not being updated internally by Anoka County
Carver:	Courtesy field maintained by County Taxpayer Services
Dakota:	No data
Hennepin:	No data
Scott:	No data
Washington:	No data

PLAT_NAME Legal Description Plat Name

Type: text Width: 50

The legal description plat name (this is often synonymous with the subdivision name).

Hennepin:	This data field is associated with a tax parcel. It is possible that the tax parcel is made up from pieces of multiple plats that are not identified as only one plat is identified.

BLOCK Legal Description Block

Type: text Width: 5

The legal description block within the plat.

Dakota:	No data
Ramsey:	Not consistently populated
Washington:	No data

LOT Legal Description Lot

Type: text Width: 5

The legal description lot within the block.

Dakota:	No data
Ramsey:	Not consistently populated
Washington:	No data

ACRES_POLY Polygon Acreage

Type: numeric | Width:11 (2dec) | ESRI Precision 10 Scale 2

The calculated acreage of the polygon within the GIS spatial data (numeric field with two decimal places)

Dakota: Data populated for single ownership Tax Parcels only.

ACRES_DEED Deeded Acreage

Type: numeric | Width:11 (2dec) | ESRI Precision 10 Scale 2

The deeded acreage of the parcel (numeric field with two decimal places)

Anoka: Partially populated
Carver: Partially populated
Dakota: No data
Hennepin: Deeds in Hennepin County generally do not contain acreage information.
Washington: No data

USE1_DESC USE2_DESC USE3_DESC USE4_DESC Use Types 1 through 4

Type: text | Width: 100

Description of use of the parcel. Up to four uses can be provided in separate fields.

Anoka: Currently only USE1_DESC is populated, even when multiple uses exist.
Dakota: The use or uses, of the property, during the year preceding the assessment, that determines the classification(s) for property tax purposes.
Hennepin: Use description is a tax use with four sub records for multiple uses.
Ramsey: Class Code is used to calculate the MULTI_USES Y/N field and USE1_DESC through USE4_DESC.
Scott: Currently only USE1_DESC is populated, otherwise no data

MULTI_USES Multiple Uses

Type: text | Width: 1

Flag (Y/N) to indicate if multiple uses exist.

Anoka: No data
Hennepin: No data, if use2-4_Desc are used, then the tax parcel has multiple uses.
Scott: No data
Washington: Multiple use parcels are identified

LANDMARK Landmark/Business Name

Type: text Width: 100

Name of the predominant landmark or business on this parcel.

Anoka:	No data
Carver:	No data
Dakota:	Common Business Name
Hennepin:	No data
Ramsey:	No data
Scott:	No data
Washington:	No data

OWNER_NAME Owner Name

Type: text Width: 50

The full name of the owner. The format should be last name first where available. Multiple owners may be included at the discretion of each county.

Anoka:	Field is populated with the primary tax assessed owner name.
Carver:	No data
Dakota:	Owner name or Contract Purchaser name. Only the first joint owner name is listed if more than one.
Hennepin:	First name, Last name format.
Ramsey:	Uses PRIMARY tax payer. This is not guaranteed to be the owner.
Scott:	No data. Taxpayer fields are populated.
Washington:	Uses PRIMARY taxpayer

OWNER_MORE Additional Owner Name

Type: text Width: 50

Field for additional owner information where available (e.g. joint owner or additional first name first format).

Anoka:	No data
Carver:	No data
Dakota:	Joint Owner Name "Last name" "First name" format. Only the first joint owner name is listed if more than one.
Hennepin:	No data
Scott:	No data. Taxpayer fields are populated.
Washington:	Line two of OWNER_NAME.

OWN_ADD_L1 OWN_ADD_L2 OWN_ADD_L3 Owner Address

Type: text Width: 40 each field

Mailing address of the owner. Up to three lines may be used. Typically line1 is street address and line2 is city, state & zip, but other variations exist.

Anoka:	Fields are populated with the tax assessed owner address.
Carver:	No data
Hennepin:	No data
Ramsey:	Uses PRIMARY tax payer address. This is not guaranteed to be the owner's address.
Scott:	No data. Taxpayer fields are populated.
Washington:	Uses PRIMARY taxpayer address.

TAX_NAME Taxpayer Name

Type: text Width: 40

The full (first and last) name of the taxpayer. The format (e.g. last name first or last name last) and inclusion of multiple taxpayers is determined by each county.

Anoka:	Primary taxpayer
Carver:	Primary taxpayer
Dakota:	No data.
Hennepin:	Primary taxpayer
Ramsey:	Uses ALTERNATE name. When available, this is often the person who pays taxes. When ALTERNATE name is blank, PRIMARY tax payer name is used
Scott:	Primary taxpayer
Washington:	Primary taxpayer

TAX_ADD_L1 TAX_ADD_L2 TAX_ADD_L3 Taxpayer Address

Type: text Width: 40 each field

Mailing address of the taxpayer. Up to three lines may be used. Typically line1 is street address and line2 is city, state & zip, but other variations exist.

Anoka:	Taxpayer's address
Carver:	Primary taxpayer's address
Dakota:	No data.
Hennepin:	Address may not be the site address
Ramsey:	Uses ALTERNATE address. When ALTERNATE address is blank PRIMARY address is used.
Scott:	Primary taxpayer's address
Washington:	Primary taxpayer's address

HOMESTEAD Homestead Status

Type: text Width: 1

Homestead status (Y = yes, N = no, P = partial)
Note: This field may allow parcel data users to assume the owner is the occupant for these parcels. Not all counties have this data as a yes or no type field.

Anoka:	2014 homestead status for taxes payable in 2015 (This will change in the April extract every year.)
Carver:	Current. No tax year associated with this field.
Dakota:	2014 homestead status. Y includes fractional and disabled homesteads (This will change in the April extract every year.)
Hennepin:	2013 Assessment for taxes payable in 2014 (This will change in the April extract every year.)
Ramsey:	2013 values for taxes payable in 2014. Uses numeric codes. There are issues with converting partial and disabled homesteads to a direct Y/N. Partial and disabled homesteads are calculated as "Y". (This will change in the January extract every year.)
Scott:	2014 estimated values for taxes payable in 2015.
Washington:	for taxes payable in 2013. (This data is updated in April each year and reflected in the June release).

EMV_LAND Estimated Market Value - Land

Type: numeric Width: 11

EMV_BLDG Estimated Market Value - Buildings

Type: numeric Width: 11

EMV_TOTAL Estimated Market Value - Total

Type: numeric Width: 11

Assessors' estimated market valuations for parcels.
Note: EMV_TOTAL may include more than the land and building values (e.g. machinery value).

Anoka:	2014 estimated values for taxes payable in 2015 (This will change in the April extract every year.)
Carver:	2014 estimated values for taxes payable in 2015 (this will change in the April extract every year.)
Dakota:	2014 estimated values for taxes payable in 2015 (This will change in the April extract every year.)
Hennepin:	2013 estimated values for taxes payable in 2014. EMV_TOTAL includes sum of Land, Building & Machinery Estimated Market Values. (This will change in the April extract every year.)
Ramsey:	2013 estimated values for taxes payable in 2014 (This will change in the January extract every year.)
Scott:	2014 estimated values for taxes payable in 2015 (This will change in the June extract every year.)
Washington:	2013 estimated values for taxes payable in 2014 (This data is updated in April each year and reflected in the June release).

TAX_CAPAC Tax Capacity

Type: numeric Width: 11

Tax capacity of the parcel.

Anoka: For taxes payable in 2015 (This will change in the April extract every year.)
Carver: For taxes payable in 2014 (this will change in the April extract every year.)
Dakota: Total tax capacity, year payable 2014 (This will change in the April extract every year.)
Hennepin: For taxes payable in 2014 (This will change in the April extract every year.)
Ramsey: No data
Scott: No data
Washington: For taxes payable in 2013 (This data is updated in April each year and reflected in the June release).

TOTAL_TAX Total Tax

Type: numeric Width: 11

TOTAL_TAX: Total tax of the parcel.

Anoka: For taxes payable in 2014 (does not include outstanding penalties or interest if owed) (This will change in the April extract every year.)
Carver: For taxes payable in 2014 (this will change in the April extract every year.)
Dakota: Total real estate tax, including special assessments, due and payable in 2014 (This will change in the April extract every year.)
Hennepin: For taxes payable in 2014 (includes special assessments) (This will change in the April extract every year.)
Ramsey: For taxes payable in 2014 (This will change in the April extract every year.)
Scott: No data
Washington: No data

SPEC_ASSES Special Assessments

Type: numeric Width: 11

Special assessment value due and payable in the current year.

Anoka: For taxes payable in 2014 (This will change in the April extract every year.)
Carver: For taxes payable in 2014 (this will change in the April extract every year.)
Dakota: Total installment, payable 2014, of special, locally levied assessments on this parcel (This will change in the April extract every year.)
Hennepin: For taxes payable in 2014 (This will change in the April extract every year.)
Ramsey: Special assessments for 2014 (This will change in the April extract every year.)
Scott: No data
Washington: No data

TAX_EXEMPT Tax Exempt Status

Type: text Width: 1

Tax exempt (Y/N)

Carver: "Y" if tax exempt status is present on property
Dakota: "Y" if any portion of the property has a tax exempt status
Hennepin: 2013 Assessment for Taxes Payable in 2014
Ramsey: Uses CAMA numeric codes for land use codes. Numeric codes in the nine hundred range were assumed to be exempt and converted to Y. All others were coded N.
Scott: "Y" if tax exempt status is present on property, "N" if not

Washington: Based on classification use code

XUSE1_DESC XUSE2_DESC XUSE3_DESC XUSE4_DESC — Exempt Uses 1 through 4

Type: text | Width: 100 each field

Description of exempt use types for the parcel. Up to for use types can be specified in separate fields.

Anoka: Currently only the XUSE1_DESC field is populated, even when multiple uses exist
Ramsey: XUSE1_DESC-XUSE_DESC field are populated by Class Code, when Land Use Code for parcel is in the nine hundred range.
Scott: No data
Washington: No data

DWELL_TYPE — Dwelling Type

Type: text | Width: 30

Type of dwelling (e.g. single family, duplex, etc.)

Anoka: Dwelling type (e.g. single family residential, condominiums, apartments, etc.)
Dakota: Describes the main use for which this building was designed, such as single family residence, duplex, tri-plex, restaurant, etc. Tax parcels with multiple buildings will display information for the first record only.
Hennepin: No data
Scott: No data
Washington: From CAMA

HOME_STYLE — Home Style

Type: text | Width: 30

Home style description (e.g. rambler, split entry, etc.)

Anoka: Includes residential, commercial, industrial, etc. structure descriptions.
Carver: If parcels have more than one building, the first building in the County's list will be displayed.
Dakota: Describes the architectural style, i.e. one story, two story, split level, etc. Is not applicable for commercial, industrial or apartment properties. Tax parcels with multiple buildings will display information for the first record only.
Hennepin: Data updates have not been received from the following cities since 2006: Brooklyn Center, Eden Prairie, Edina, Maple Grove, Minnetonka & St. Louis Park. County does not have residential characteristics data for Bloomington, Brooklyn Park, Champlin, Minneapolis and Plymouth.
Scott: Describes the architectural style, i.e. one story, two story, split level, etc.
Washington: If parcels have more than one building, the first building in the County's list will be displayed.

FIN_SQ_FT Square Footage

Type: numeric Width: 11

Finished square footage.

Anoka:	Livable square footage.
Carver:	Prime square footage. If parcels have more than one building, the first building in the County's list will be displayed.
Dakota:	For residential type buildings, the total finished area in the main structure, including additional levels and/or basements. For commercial or industrial buildings, this field refers to total gross building area, finished and unfinished.(NOTE: If multiple buildings exist the information shown represents only one of those buildings.)
Hennepin:	Hennepin: Data updates have not been received from the following cities since 2006: Brooklyn Center, Eden Prairie, Edina, Maple Grove, Minnetonka & St. Louis Park. County does not have residential characteristics data for Bloomington, Brooklyn Park, Champlin, Minneapolis and Plymouth.
Scott:	Finished square footage from CAMA.
Washington:	Finished square footage from CAMA

GARAGE Garage

Type: text Width: 1

Garage (Y/N)

Dakota:	No data
Hennepin:	Hennepin: Data updates have not been received from the following cities since 2006: Brooklyn Center, Eden Prairie, Edina, Maple Grove, Minnetonka & St. Louis Park. County does not have residential characteristics data for Bloomington, Brooklyn Park, Champlin, Minneapolis and Plymouth.
Scott:	No data
Washington:	From CAMA

GARAGESQFT Garage Square Footage

Type: text Width: 11

Garage square footage.

Anoka:	No data
Carver:	No data
Dakota:	This number represents the garage square footage outside the foundation of a residence (excludes tuck-under garage square footage).
Hennepin:	Hennepin: Data updates have not been received from the following cities since 2006: Brooklyn Center, Eden Prairie, Edina, Maple Grove, Minnetonka & St. Louis Park. County does not have residential characteristics data for Bloomington, Brooklyn Park, Champlin, Minneapolis and Plymouth.
Ramsey:	Garage Square Footage populated for detached & attached garages, but not basement garages.
Scott:	Garage square footage from CAMA.
Washington:	From CAMA

BASEMENT Basement

Type: text Width: 1

Basement (Y/N)

Carver:	No data
Dakota:	No data
Scott:	No data
Washington:	From CAMA

HEATING Heating

Type: text Width: 30

Type of heating in use

Anoka:	Field is partially populated
Hennepin:	Hennepin: Data updates have not been received from the following cities since 2006: Brooklyn Center, Eden Prairie, Edina, Maple Grove, Minnetonka & St. Louis Park. County does not have residential characteristics data for Bloomington, Brooklyn Park, Champlin, Minneapolis and Plymouth.
Scott:	No data
Washington:	From CAMA

COOLING Cooling

Type: text Width: 30

Type of cooling in use

Anoka:	Field is partially populated
Hennepin:	Hennepin: Data updates have not been received from the following cities since 2006: Brooklyn Center, Eden Prairie, Edina, Maple Grove, Minnetonka & St. Louis Park. County does not have residential characteristics data for Bloomington, Brooklyn Park, Champlin, Minneapolis and Plymouth.
Scott:	No data
Washington:	From CAMA

YEAR_BUILT Year Built

Type: numeric Width: 4

The year the primary structure was initially built

Carver:	If parcels have more than one building, the first building in the County's list will be displayed.
Dakota:	Tax parcels with multiple buildings will display information for the first record only.
Hennepin:	This field is populated by individual city assessors and cannot be guaranteed by Hennepin County.
Ramsey:	Dwelling data and Commercial data were combined.
Scott:	Data is current through 2013.
Washington:	From CAMA. If parcels have more than one building, the first building in the County's list will be displayed.

NUM_UNITS Number of Units

Type: text Width: 6

Number of residential units

Anoka:	Number of residential units – apartment buildings or mobile home parks
Carver:	Number of residential units – apartment buildings
Dakota:	Number of residential units – apartment buildings
Hennepin:	No data
Scott:	No data
Washington:	From CAMA

SALE_DATE Last Sales Date

Type: date Width: 8

Date of last sale. In general this includes all "arm's length" transactions and would not, for example, include a sale to a family member for $1. This may vary by county.

Anoka	Includes sales back to 2000. Blank values display as "<Null>"
Carver:	Includes all sales QUALIFIED/UNQUALIFIED dating back to mid 1980s..
Dakota:	Day, month and year of last QUALIFIED SALE (excludes Vacant Land sales).
Ramsey:	The CAMA valid sales were used. Data exist for 39% of parcels.
Scott:	Includes sales data through 2014
Washington:	From CAMA

SALE_VALUE Last Sales Value

Type: numeric Width: 11

Value of last sale

Anoka:	Field is partially populated.
Dakota:	Last QUALIFIED SALE amount (excludes Vacant Land sales)
Ramsey:	The CAMA valid sales were used. Data exist for 39% of parcels.
Scott:	Data current through 2014
Washington:	From CAMA

SCHOOL_DST School District

Type: text Width: 6

Unique school district number. Values are shown below.

School District Number	School District Name
6	South St. Paul
11	Anoka
12	Centennial
13	Columbia Heights
14	Fridley
15	St. Francis
16	Spring Lake Park
108	Norwood-Young America
110	Waconia
111	Watertown-Mayer

WSHD_DIST Watershed District

Type: text Width: 50

Watershed district or watershed management organization name

Carver:	Current
Hennepin:	0 = located in a watershed district that does not levy a watershed district tax rate
Ramsey:	Data is joined using PRR's data
Scott:	Populated with abbreviated Watershed district name

GREEN_ACRE Green Acres

Type: text Width: 1

Green acres status according to Minnesota Statute 273.111 (Y/N)
http://www.revisor.leg.state.mn.us/stats/273/111.html

Anoka:	No data
Scott:	"Y" if Green Acres status is present on property, "N" if not

OPEN_SPACE Open Space

Type: text Width: 1

Open space status according to Minnesota Statute 273.112 (Y/N)
http://www.revisor.leg.state.mn.us/stats/273/112.html

Anoka:	No data
Carver:	No data
Ramsey:	No data
Scott:	No data
Washington:	No data

AG_PRESERV Agricultural Preserve

Type: text Width: 1

Agricultural preserve status (Y/N)

Ramsey:	No data
Hennepin:	No data, displaying as “12:00:00”
Scott:	“Y” if Agricultural Preserve status is present on property, “N” if not

AGPRE_ENRD Ag. Preserve Enrolled

Type: date Width: 8

Agricultural preserve enrolled date

Anoka:	No data
Dakota:	No data
Ramsey:	No data
Hennepin:	No data, displaying as “12:00:00”
Scott:	No data
Washington:	No data

AGPRE_EXPD Ag. Preserve Expiration

Type: date Width: 8

Agricultural preserve expiration date

Anoka:	No data
Dakota:	No data
Ramsey:	No data
Hennepin:	No data
Scott:	No data
Washington:	No data

PARC_CODE — Parcel Polygon to Parcel Point and PIN Relationship Code

Type: numeric Width: 2

This field is used to provide information about the relationship between parcel polygons, parcel points and unique tax parcel identifiers (PINs). Values are:

0 = Information not available or not provided
1 = Valid Parcel with a single tax PIN
2 = In polygon dataset: Parcel polygon representing multiple tax PINs
In point dataset: One of multiple parcel points that together are represented by a single polygon

The values below are likely only to be found in the polygon dataset. The polygons for which they are assigned are unlikely to have a tax PIN or other parcel attributes. The parcel points datasets, where available, are unlikely to include these feature types.

10 = Condominium Common Area
11 = Right-of-way
12 = Easement
13 = Ownership Unknown
14 = Gap between parcel boundary descriptions
15 = Water Body
16 = Ditch
17 = Walkway
98 = Other non-parcel feature
99 = Unspecified non-parcel feature

Anoka:	No data
Hennepin:	No data
Scott:	No data

See the "Completeness" metadata element in Section 2 of the metadata (http://www.datafinder.org/metadata/metrogis_regional_parcels.htm#dataqual) for more information about the inclusion of condominiums within the Regional Parcel Dataset.
